~~SECRET~~(B) MATERIAL INSTALLATIONS IN THE MANDATES

For many years Japan has effectively prevented observation of activities in the MANDATED ISLANDS. However, it is known that as a result of extensive hydrographic and meteorological surveys, considerable expansion and improvements have been completed in harbor development, "commercial" air facilities, communications and meteorological establishments in the principal islands (JALUIT, PONAPE, KUSAIE, TRUK, PALAO, and SAIPAN). Since late in 1940 ORANGE Naval and Air Operations in this area have increased and some forty to forty-five naval auxiliaries (cargo, transport, supply, and tankers ..... ex-merchant marine) now make continuous shuttle trips to the MANDATES with personnel, material, equipment and supplies. (Places marked # below have been destination for these vessels.) The "Material Installations" are listed below to bring up to date the information reported in ONI-49, "Extracts from the Japanese Monograph 1939", pages 127.01 to 127.24 inclusive.

(B) Material Installations in MANDATES.  
(C) Probable Forces, Naval and others, in MANDATES.  
(D) Summary of Activities in MANDATES.

-----

(A) ORANGE NAVAL ORGANIZATION - FLEETS.

\*\*\*\*\*

The above organization is believed to be quite accurate but attention is invited to the fact that ORANGE may (and probably will) regroup Fleets or units of Fleets into special Task Forces (or new Fleets) for special operations or to meet given conditions; for example: when ORANGE wanted to make a show of force in connection with its benevolent mediation in the THAILAND -- FRENCH INDO-CHINA Dispute during the latter part of January 1941, a special reenforcement unit was sent from the FIRST and SECOND FLEETS to the SOUTH CHINA FLEET. This unit consisted of CRUDIV 7 (4 CA), DESRON 1 (1 CL - 16 DD), CARDIV 2 (2 CV - 1 DESRON), 1 AV and 1 or more XAV. The THIRD FLEET was actually organized in April 1941, but did not operate as such until the political situation permitted the FRENCH INDO-CHINA Base question to be forced in June - July, 1941. It is of interest to note that the reenforcement of the SOUTH CHINA FLEET in January was a "Rehearsal Run" for the organization of the THIRD FLEET. Although the submarines were organized and operated in a separate Fleet (6th), they have also been split to operate with the 1st and 2nd FLEETS as well. The inclusion of the 3 COMBINED AIR FORCES into the 6th FLEET substantiates past reports of Joint Maneuvers of Submarines and Air Force with stress on their cooperation in Fleet Problems and Exercises.

~~SECRET~~D. ACTIVITIES IN PROGRESS IN THE MANDATES.

When BLUE held Fleet XXI, the ORANGE FOURTH FLEET took up stations in the Eastern Mandates and intensified its radio intercept activities in conjunction with ORANGE trans-Pacific naval tankers. In late August - early September, 1940, ORANGE held maneuvers in the Mandated areas using the Air arm (carrier and shore-based planes) and Submarine Force to search for, locate, and attack a hypothetical enemy Force (represented by the FOURTH FLEET) advancing to the West from the vicinity of the Northern Gilberts. The general defence line seemed to be PONAPE - TRUK but details or conclusions of the exercises are not known. It may be significant that on the next Fleet reorganization, December, 1940, a separate SUBMARINE (SIXTH) FLEET was formed (See Section A).

ORANGE's decision to speed up the militarization was apparently reached concurrently with the signing of the Tri-Partite Pact, as movements of naval reserve auxiliaries (taken over from the Merchant Marine) to the Mandates became apparent thereafter. Since late in nineteen forty this movement of personnel, materials and supplies has progressively increased until in July, 1941, there were approximately forty to forty-five ships constantly engaged in round trips between ORANGE mainland and the Mandates. An analysis shows about sixty-five percent of this shipping is destined for the Eastern CAROLINES and MARSHALLS.

Considerable air activity has been in evidence at SAIPAN, PALAU, TRUK, PONAPE and in the JALUIT area. Foreign steamers nearing these areas have been subjected to aircraft observations and close scrutiny by Patrol Planes, Bombers and Fighters. Heavy land plane bombers have made reconnaissance flights over the GILBERT ISLANDS (TARAWA, BUTARITARI, and BEKU).

DISCUSSION OF SHORE ORGANIZATIONS AND ACTIVITIES

During the early months of 1941, evidence has shown that an Administrative Organization has been set up for control and expansion of the military developments of the Mandates. This Mandate Organization is taking the line parallel to but separate from the parent organization, YOKOSUKA Administration chain, previously in control. While PALAU has always been the MANDATE Administrative center (and may continue to be) the focus of SUPPLY, CIVIL ENGINEERING AND MUNITIONS Administration in the Mandates is now centered at TRUK.

ENCLOSURE (A)

An increase in the number of CIVIL ENGINEER Detachments on the various Islands has been very noticeable and while some are distinctly Detachments of the YOKOSUKA Civil Engineering Section, others are separately and distinctly Detachments of the FOURTH Civil Engineering Section which almost invariably has detachments on the same islands as the YOKOSUKA Branch Detachments. The Headquarters of the FOURTH CIVIL ENGINEERS was formed at KURE in November 1940 and moved to YOKOSUKA the latter part of January 1941, and thence to the Mandates about 20 February. Accompanying it were the 4th MILITARY STORES (MUNITIONS) and 4th SUPPLY ADMINISTRATION which also have branch offices on the principal islands of the MANDATES.

The Commanders of the 3rd, 4th, 5th and 6th DEFENCE DIVISIONS (BASE FORCES) have a Flagship and a Headquarters or Administrative Section, the latter remains ashore at a home base regardless of the movements of the Command or of the Flagship. Each DEFENCE DIVISION contains a DEFENCE FORCE which in the case of the 4th and 6th is divided into DETACHED FORCES on the islands in the vicinity of the Command's Headquarters. Close cooperation has been noted between the DEFENCE FORCES and the Aircraft activities at their home bases.

The 3rd DEFENCE DIVISION has four submarines attached, possibly old boats of the "Ro" type. It may be ORANGE intention to similarly organize the other DEFENCE DIVISION.

During late May 1941 ORANGE held maneuvers in the Mandates in connection with the dispatch of a part of the COMBINED AIR FORCE to that area (indoctrinal training?). The RYUJU (and possibly the HIRYU) and about half of the SUBMARINE FLEET also took part in this exercise. It is believed that the FOURTH FLEET acted as an "Enemy Fleet" attempting to penetrate into the MARSHALLS, with the AIR FORCES plus the SUBMARINE FLEET attempting to intercept them. It was reported that the ORANGE strategic high frequency Direction Finder net was active in this phase, funnelling information to the AIR AND SUBMARINE FORCES on a common chain via SAIPAN and there is some evidence that these Forces were under a unified command. After visits at WOTJE, KWAJELIN, AND JALUIT the additional forces returned to their normal operating units at the end of June.
